Charges

All charges, unless otherwise stated, are indicative only and excl. VAT and other duties.

Ship's dues*:

Terms of Business	DKK
Ship's	3.60 / GT
Passenger dues	3.57 / pax
Port security fee	3.06 / pax

* Fees will be charged in DKK

* The prices are valid for cruise ships that dock for up to 48 hours

Port security fees include min. 2 authorized guards for vessels with up to 1,200 guest, 3 guards for vessels with up to 2,500 guests and 4 guards for vessels with more than 2,500 guests.

In addition, Ship's dues include:

The Port of Fredericia will provide one 12 m³ waste container free of charge when booked at least one normal working day prior to arrival.

Additional waste collection will be charged DKK 300.00 per m³
Preparations outside normal working hours DKK 314.00 per hour

Minimum 24 hours notice for delivery of waste, black/grey water and other additional services.

The Port of Fredericia will receive 2 m³ sludge/bilge free of charge for vessels up to ship 75,000.00 GT. For vessels larger than 75,00.00 GT, the Port of Fredericia will receive 4 m³ free of charge.

For additional sludge/bilge receipt, the Port of Fredericia will charge DKK 1,008.00 per m³.

Black and Grey water

The Port of Fredericia will collect Black and Grey water through pipelines according to Annex IV of Marpol 73/78. The Port of Fredericia will accept maximum pump capacity of 100 m³ per hour.

Vessels up to 75,000 GT can unload 200 m³ free of charge and vessels larger than 75,000 GT can unload 400 m³ free of charge. Additional quantity will be charged DKK 90.00 per m³, including one watchman.

Standard dimensions for flanges for the connection point between the recipient scheme's pipes and the ship's discharge pipes for sewage and grey water.

Description	Dimensions
External diameter	210 mm
Internal diameter	Equivalent to the pipe's external diameter
Bolt ring diameter	170 mm
Flange cut-outs	4 holes with a diameter of 18 mm to be placed at equal intervals on a bolt ring of the aforementioned diameter cut out to the flange's circumference. The breadth of the cut-out must be 18 mm.
Flange thickness	16 mm
Bolt and nuts Number and diameter	4, each of 16 mm in diameter of a suitable length

The flange must match pipes with an internal diameter of up to 100 mm and must consist of steel or other equivalent material with smooth surfaces. The flange with equivalent packing of oil-resistant material must be able to withstand a working pressure of 6 kg/m²
